About Me

I'm passionate about the ever-evolving technology with a solid background in delivering high-impact solutions; I excel in both front-end & back-end. Proficient in React Native, React, JavaScript (ES6+), PHP, HTML/CSS, Bootstrap, and Tailwind. I create engaging cross-platform applications. My expertise in UI/UX design ensures functionality and visual appeal, while my skills in API integration, OOP, and C++ enable seamless data interactions. Equipped with knowledge of ERP systems and Firebase.
